

Connecting to Guest Wi-Fi

A step by step guide

Connect to Wi-Fi using an IOS device:

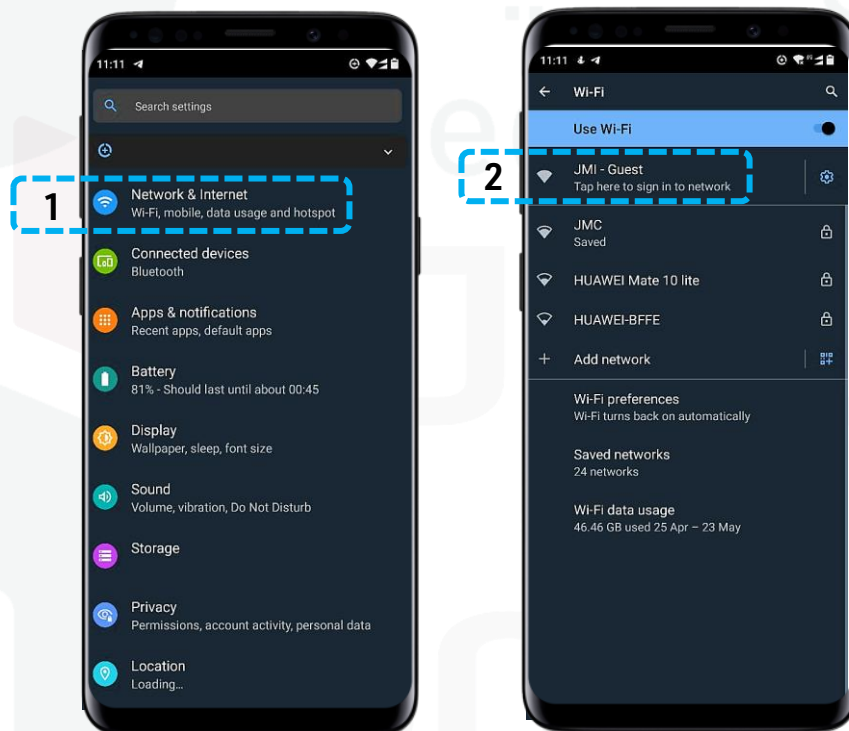

1. From your Home screen, go to Settings > Wi-Fi.
2. Turn on Wi-Fi. Your device will automatically search for available Wi-Fi networks.
3. Tap on the following network: **JMI-Guest**
4. Enter the following password: **70073326** then click login.

Feel free to contact IT department if you require any further assistance.

Connect to Wi-fi using an Android device:

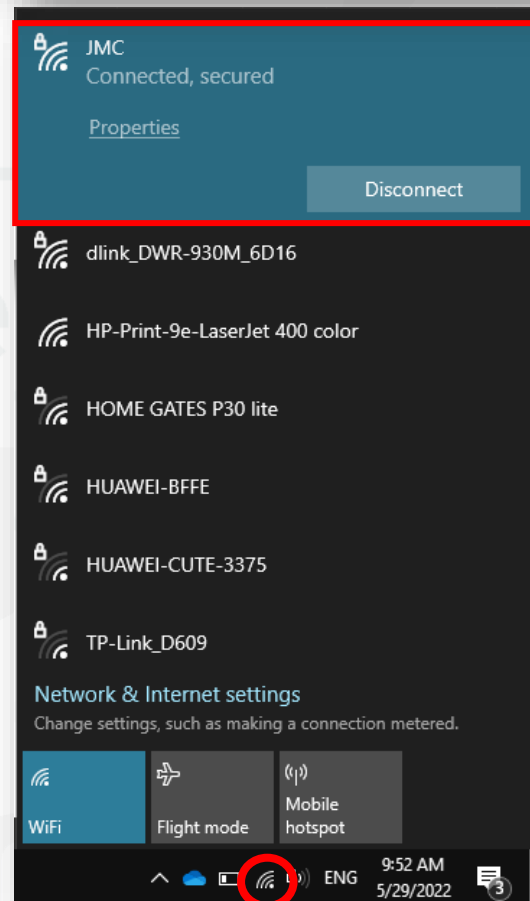

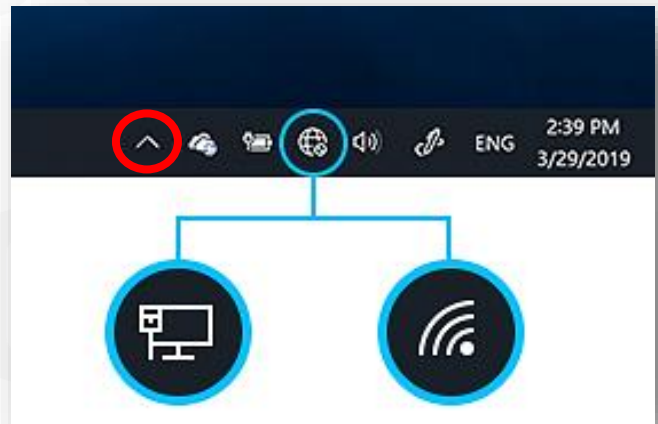

1. Swipe down from the top of the screen, touch and hold Wi-fi , turn on Use Wi-fi.
2. Open Settings and tap on Network & Internet option.
3. Tap on the following network: **JMI-Guest** and click on "Tap here to sign in to network" option.
4. Enter the following password: **70073326** then click login.

Feel free to contact IT department if you require any further assistance.

Connect to Wi-fi using a laptop or PC:

1. Click on the Network icon in the bottom-right corner of the taskbar. The icon that appears depends on your current connection state. If you don't see one of the network icons (or a similar one) shown in the following image, select the Up arrow to see if it appears there.
2. As shown in the photo, choose the Wi-Fi network **JMI-Guest**, then select Connect.
3. Enter the following password **70073326** then click login.

Feel free to contact IT department if you require any further assistance.
